The seventh edition of the IWA Odours & Air Emissions conference will be held in Warsaw from the 25th to 27th September 2017.

The Polish capital hosts this year’s forum with a vision that is sure to create a dynamic exchange on air quality issues amongst the various participants and stakeholders. The conference represents a unique networking opportunity for industry specialists, researchers and professionals from all sectors to share ideas and experiences regarding air emissions policy, strategic initiatives, technical / commercial innovations and their corresponding impact on air emissions and odour management.

**Targeted audience**

Public sector: state and local governments bodies, research institutions, universities
Private sector: consulting firms, equipment manufacturers, wastewater and solid waste industry, agrifood industry and all stakeholders concerned with air emissions and nuisance odour management.

We are pleased to invite companies interested to sponsor the event and contribute to its organization.
